HOBBIES

MOSES UKWENYA

FRONT END DEVELOPER

ABOUT ME

From the moment I produced “Hello World” in the console of my first application, I knew I was hooked into the world of software development; but software development has never been “just a job” for me. It has offered an engaging challenge to continually learn and improve my skills in creating high quality websites and software. What started with a simple “hello world” has become a full-fledged passion that only gets more exciting as the year goes by.
